

## Comparison Features - Rave2 vs. Legacy2

Feature	Rave2	Legacy2
• Made in USA	Y	Y
• Mounts onto the steps	Y	Y
• 350 LB. transport capacity	Y	Y
• Over Speed Governor (OSG)	Y	Y
• Two remote wireless call/send transmitters	Y	Y
• Seat swivels & locks at the top of the stairs	Y	Y
• Optional key lock	Y	Y
• Battery powered	Y	Y
• Trips during power outages	60	20
• Folding rail option for door/hallway at stair bottom	Y	N
• Retractable seat belts	Y	N
• Seat width	19.5"	18"
• Distance out from track-side wall when folded	11"	12.5"
• Travel obstruction sensors <sup>1</sup>	Y	N <sup>1</sup>
• Maintenance-free <sup>2</sup>	Y	N <sup>2</sup>
• Quiet & smooth ride <sup>2</sup>	Y	N <sup>2</sup>
• Choice of four seat colors	Beige	Y
• Warranty - Track/Rail	10 yrs.	Lifetime
• Warranty - Carriage & Components	3 yrs.	Lifetime
• Warranty - Batteries	1 yr.	2 yrs.

Differences noticed in gray

<sup>1</sup> The Legacy obstruction sensors for downward trips only while the Rave2 senses in both directions.

<sup>2</sup> The Rave's polymer screw drive is maintenance-free and provides a more smoother & quieter ride. The Legacy uses the industry's standard steel rack & pinion drive. Steel rack & pinion drives require periodic cleaning & lubrication and deliver a slightly bumpier & noisier ride.
